The next Governor's Meeting and the General Membership Meeting will be held in Toronto, Canada. This meeting will be in conjunction with the 2018 Buildings Show. From the Buildings Show website, "*The Buildings Show provides an unforgettable experience as North America's largest event for products, services, educational programming and professional networking. This program continues to be under development. It is our intent for the membership to have the opportunity to share their knowledge while guiding others to improve their quality of life. There is no doubt about the value and importance of the work and our dedication to continue spreading the message of building safety throughout the world.
